(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

This is a petition to revive United States Patent Application No. 09/762,740 under 37 CFR 1.137(a). This petition is accompanied by an adequate showing that the entire delay in filing the required reply, from the due date for the reply until the filing of this petition, was unavoidable. In addition, this petition is accompanied by the requisite petition fee. The required reply was previously filed on June 1, 2012, in the form of continuation application No. 13/486,520. Specifically, as explained by the sole inventor and applicant Kenneth Austin in the attached Declaration, the applicant did not appreciate the fact that by not responding to the Office action of October 20, 2008, the pending application becomes abandoned in the sense that no divisional applications can be filed. Therefore, the entire delay in filing the required reply to the Office action of October 20, 2008, from the due date of the reply until the filing of this petition under 37 CFR 1.137(a), was unavoidable.
